SUBPART S: RATES

Section 240.1920 Contract Specific Variations

The Department will consider reimbursing a provider~~vendor~~ at a rate other than the established fixed unit rate to compensate for contract specific variations in cost. This consideration will be made under the following circumstances:

a) there is evidence to suggest that a contract area currently served by a provider~~vendor~~ will become "unserved" due to inadequate reimbursement by the State to cover costs. An adjusted rate will be used only after the "emergency contracting process", as defined in Section 240.1605, has shown that no provider~~vendor~~ offered an emergency contract is willing to provide service in the contract area at the established fixed unit rate. The adjusted rate will then be determined through the competitive procurement process as defined in Section 240.1605.

b) Once a contract area has established an adjusted rate, that rate shall be effective until such time as a new procurement process has been initiated.

c) The adjusted rate contractor must still meet the requirements for chore housekeeping and homemaker provider~~vendors~~ as stated in Section 240.2020, and Section 240.2040.

Section 240.1930 Fixed Unit Rates of Reimbursement for
Chore Housekeeping and Homemaker Services

The Department will establish a fixed unit rates of reimbursement for chore housekeeping and homemaker services exclusive of those services as defined in Sections 240.270 and 240.280. The fixed unit rates of reimbursement will be published in the official state newspaper.

e) The Department reserves the right to require the provider to engage an independent certified public accounting firm to verify the information and data submitted by the provider if the Department is in possession of evidence to suggest the information and data submitted is inaccurate, incomplete or fraudulent. This audit will be performed at the provider's expense.

- 1) the operating history of the facility;
- 2) the number and severity of agrichemical spills that have occurred at the facility;
- 3) response actions at the facility; and
- 4) the potential adverse impacts on groundwater.

When post-agrchemical spill groundwater monitoring is required for facilities located in minimum setback zones, the owner or operator shall perform the monitoring as specified in subsection (e). For facilities located in a Category A maximum setback zone, the owner or operator shall perform the monitoring as specified in subsection (f). For facilities located in a Category B maximum setback zone or regulated recharge area, semi-annual monitoring shall be required for three years except that after the second year the Department may approve monitoring on an annual basis. A facility request to alter monitoring shall include all monitoring results. For facilities located in a Category B maximum setback zone or regulated recharge area, monitoring may be altered upon approval by the Department if there were no confirmed pesticide detections and nitrate-nitrogen levels had not exceeded 10 mg/l during two (2) consecutive years of monitoring.

- h) The owner or operator may file a request to discontinue monitoring for a facility located in a category B maximum setback zone or regulated recharge area provided there were no monitoring results that exceed the criteria specified in subsection (k) for three years after the start of the monitoring period. A facility request to discontinue monitoring pursuant to this subsection shall include all monitoring results. Monitoring shall be resumed in accordance with subsection (g) if an agrichemical spill occurs at the facility unless the Department determines that such incident was of minimal consequence.

- i) A groundwater monitoring program shall provide for:

- 1) sampling and analysis procedures that are designed to ensure monitoring results that provide a reliable indication of groundwater quality below the activity. At a minimum the program shall include procedures and techniques for:

DEPARTMENT OF AGRICULTURE

NOTICE OF PROPOSED RULES

- A) sample collection;
- B) sample preservation and shipment;
- C) analytical procedures; and
- D) chain of custody control.

- 2) sampling and analytical methods that are appropriate for groundwater monitoring and that allow for detection and quantification of contaminants specified in this Section, and that are consistent with the sampling and analytical methods specified in Section 257.20. Appropriate immunoassay screening tests and procedures approved by the Department may be used in combination with the analytical procedures.

- 3) a minimum of five pesticides as approved by the Department. In selecting the appropriate pesticides to monitor the following criteria shall be considered:

- A) the volume and quantity of the pesticides stored, disposed of, or otherwise handled at the facility; and
 - B) there is a groundwater standard for such parameter; or
 - C) if there is no groundwater standard, a health advisory level established by USEPA or under 35 Ill. Adm. Code 620.Subpart F; and
 - D) physical and chemical properties of the pesticides indicate the potential for transport to groundwater.
- 4) nitrate as nitrogen shall be monitored where nitrogen fertilizer is stored or handled.
 - j) All monitoring results shall be maintained on-site and be available for review on request by the Department.

- k) Results of groundwater monitoring shall be submitted, where constituent concentrations exceed 50% of the groundwater standard(s) for pesticide(s), to the Department within 60 days after completion of sampling. Results for nitrate that exceed the groundwater standard shall also be submitted to the Department within 60 days after completion of sampling.

DEPARTMENT OF AGRICULTURE

NOTICE OF PROPOSED RULES

This submission shall address the following:

- 1) evaluate the significance of the results; and
 - 2) provide a description of the response action taken.
- The Department may consider whether the owner or operator reasonably demonstrates that during review of the information provided under subsection (k) that groundwater contamination was a result of:
- 1) residual contamination from a prior agrichemical spill(s) where appropriate action has already been taken; or
 - 2) the source of contamination is not due to an on-site agrichemical spill(s); or
 - 3) the source of contamination was due to an agrichemical spill(s) prior to the effective date of this Part and which remains subject to other applicable provisions of existing state or federal laws or regulations adopted thereunder.

m) Results of alternate monitoring shall be submitted as required by the Department. This submission shall address the following:

- 1) evaluate the significance of the results; and
 - 2) provide a description of the response action taken.
- The Department may consider whether the owner or operator reasonably demonstrates that during review of the information provided under subsection (m) that contamination was a result of:

- 1) residual contamination from a prior agrichemical spill(s) where appropriate action has already been taken; or
 - 2) the source of contamination was due to an agrichemical spill(s) prior to the effective date of this Part.
- The Department shall evaluate the response action taken under subsection (k) or subsection (m), advise the owner or operator in writing regarding these findings, and provide a time frame for correction of any deficiencies. In

DEPARTMENT OF AGRICULTURE

NOTICE OF PROPOSED RULES

performing the evaluation, the Department shall consider the following:

- 1) evaluate the extent and severity of on-site contamination;
- 2) the presence of potentially affected off-site water supply wells;
- 3) the frequency of monitoring; and
- 4) the appropriateness of the response.

p) The Department shall ensure that potential impacts on off-site water supply wells are evaluated and considered when making determinations about the adequacy of response actions. Such assurance shall include, when appropriate, water well sampling at a frequency and duration that is commensurate with the on-site conditions that caused the response action. The Department shall also coordinate its activities under this subsection with the Illinois Department of Public Health or local health department so that those off-site wells that are most likely to be impacted are afforded this consideration.

Section 257.60 Permits and Permit Modifications

- a) An Agrichemical Facility Permit or Lawncare Containment Permit issued by the Department shall be obtained for each existing and new facility affected by this Part. Permit applications shall be submitted on forms provided by the Department. The application shall be accompanied by engineering plans and specifications for any construction or modification to be accomplished pursuant to the Permit. Such plans and specifications shall be prepared by an Illinois Professional Engineer when required by the provisions of the Illinois Professional Engineering Act (225 ILCS 325/1 et seq.). A Permit shall be obtained before the commencement of any construction necessary to meet the compliance date, as determined by the applicable subsection(s) below. A Permit must be amended before the commencement of any modification to the facility. A Permit amendment shall not be required for alterations at the facility. A Permit will be transferred to a new owner or operator upon written notification by the permittee to the Department. Permits shall be renewed every 5 years.

DEPARTMENT OF AGRICULTURE

NOTICE OF PROPOSED RULES

b) An application for a Permit submitted by a corporation shall be signed by a principal executive officer of at least the level of vice president, or a duly authorized representative who is responsible for the overall operation of the facility described in the application. In the case of a partnership or a sole proprietorship, the application shall be signed by a general partner, a facility manager, or the proprietor respectively. In the case of a publicly owned facility, the application shall be signed by either a principal executive officer, ranking official or a duly authorized employee.

c) The Department shall issue a Permit within 90 days after receipt of the application, provided the documents accompanying the application indicate that the facility will be in compliance with the provisions of 8 Ill. Adm. Code 255, 8 Ill. Adm. Code 256, the provisions of this Part, as applicable, and the Environmental Protection Act (415 ILCS 5/1 et seq.). In addition to completed application forms, documents which must be submitted include a location area map, detailed plot plan of the facility and any additional information the applicant or the Department deem necessary to fully describe the project. A Permit issued "with conditions" means that the facility is deficient in some area in order to meet full compliance with the beforestated rules. A Permit with conditions would be issued if the operation of the facility during the period of time that the facility owner was correcting the deficiency does not jeopardize the environment. If the Department fails to grant or deny the Permit as requested or issue with conditions within 90 days from the date of receipt of the application, the applicant may deem the Permit granted for a one year period commencing on the 91st day after the application was received. If the application for a Permit is denied, the Department shall notify the applicant in writing as to why the permit was denied.

d) Facilities holding permits issued prior to the effective date of this Part shall file with the Department a request for permit modification which shall address any modifications to the facility required under this Part. Such filing shall occur within 180 days of the effective date of this Part. Construction of permitted facilities shall be completed within 180 days of permit issuance. If no facility modifications are required by the provisions of this Part, no permit modification shall be required.

e) An agrichemical facility general class permit issued by the Department shall be obtained by the owner or operator of a

central distribution facility affected by this Part. The central distribution facility affected by this Part shall file with the Department an application for permit within 180 days of the effective date of this Part. Construction of permitted facilities shall be completed within 180 days of permit issuance.

f) Experimental Permits

1) To best aid the improvement of agrichemical containment technology, the Department shall issue Experimental Permits for containment processes or techniques that do not satisfy the requirements of this Part, provided the applicant submits a registered professional engineer's statement certifying that the design includes appropriate safeguards (i.e., quality control, quality assurance, and supportive analytical data) to ensure that the process or technique has a reasonably substantial chance for success (i.e., the quality control for the experimental design will indicate if there is any malfunction).

2) A valid Experimental Permit shall constitute a prima facie defense to any action brought against the permit holder for a violation of the Rules of this Part, but only to the extent that such action is based upon the failure of the process or technique.

3) All Experimental Permits shall have a duration not to exceed two years.

4) Application for renewal of an Experimental Permit shall be submitted to the Department at least 90 days prior to the expiration of the existing permit. To the extent the information to be supplied for renewal is identical with that contained in the prior permit application, the applicant shall so note on the renewal application, and the Department shall not require the submittal of data and information submitted with the original application.

Section 257.70 General Class Permits for Central Distribution Facilities

The designated secondary containment structure shall include a minimum of a four (4) -inch curb or other flow-diverting structure or system to allow for the interception and retention of spilled materials within the secondary containment area. The minimum four (4) -inch curb or other flow-diverting structure or system shall completely surround the designated secondary containment structure. There shall not be penetrations in the floor and all existing floor drains shall be sealed with a non-shrink grout. This requirement shall only apply to facilities which store at least 300 gallons or 300 pounds of pesticides; or 1,500 gallons of fertilizers in mini-bulks and packaged goods at any one time.

e) All transfer of agrichemicals between containers including loading, unloading, repackaging and mixing, and equipment cleaning performed at an agrichemical facility subject to the provisions of 8 Ill. Adm. Code 255 shall be conducted within a containment system designed to intercept, retain, and recover operational and accidental spillage, leakage, wash water, and agrichemical residues. Construction materials of containment structures shall be compatible with the products handled and maintained in a condition to retain recovered material until it is used or properly disposed of. A containment system for such transfer piping during either a loading or unloading operation shall consist of one of the following:

- a) All containment structures, storage tanks, valves, and piping shall be visually inspected at least daily during the application season and maintained as necessary to assure compliance with this section. A written record of all inspections and maintenance shall be kept at the facility available for inspection by the Department. This requirement shall not be applicable to facilities issued general Class A or B lawncare containment permits.
- b) Clay-based containment structures may be used for the construction of fertilizer secondary containment at agrichemical facilities subject to the provisions of 8 Ill. Adm. Code 255. Spilled materials held in clay-based secondary containment structures shall be removed within twenty-four (24) hours of detection unless the facility has notified and received approval from the Department. Direct discharge of collected precipitation from clay-based secondary containment structures shall be prohibited after a spill event until such time as the collected precipitation is demonstrated to be free of contaminants.
- c) Drip and catch pans shall be placed under valves, pumps and hose connections at agrichemical and lawncare facilities where intermittent spillage has occurred.
- d) An agrichemical facility shall require the transport vehicle operator to remain at the transport vehicle during all agrichemical loading and unloading operations. All unloading of bulk pesticides at an agrichemical facility shall be conducted over loading operational containment structures. The agrichemical facility shall post emergency telephone numbers at the designated fertilizer unloading

The Department may require prior notification of discharge of collected precipitation from operational and secondary containment areas from selected facilities for a period of three (3) to six (6) months based on facility past performance and management practices pursuant to 8 Ill. Adm. Code 255.110 or 8 Ill. Adm. Code 256.70. Written records shall be maintained at the agrichemical facility for possible inspection by Department personnel. These requirements shall not be applicable to facilities issued a general Class A lawncare containment permit.
- g) All mixing and loading activities at lawncare facilities shall be conducted over wash water containment areas.
- h) All facility containment operations personnel associated with agrichemical facilities and lawncare facilities shall attend, at least once during the term of the facility permit, a training session offered by the Department regarding containment management and incident response. Programs offered by other sponsoring organizations may be utilized to meet this requirement provided that the Department has reviewed and approved the program content prior to its offering. The training session sponsoring organization shall issue, to all persons attending said training sessions, a certificate of participation. The sponsoring organization shall also maintain a record of all persons attending said training sessions and make such records available for inspection by the Department upon request. This requirement shall not be applicable to facilities issued general class A or B lawncare containment permits.

Section 510.70 Department Review Procedures

a) The Application shall be reviewed by the Springfield Division Manager and the Matching Grant Manager of the Bureau of Tourism staff and then presented to the Tourism Deputy Director and the Department's Director for approval or rejection.

b) The following questions and factors shall be considered by the Department in its determination whether to accept or reject an Application:

1) Marketing

A) Is the Project a component of an overall marketing program? Does it complement regional and state marketing programs? More favorable consideration is given to Projects that are a part of a thoroughly well-planned marketing program prepared in cooperation with the Bureau of Tourism. Does the Project support and augment the marketing efforts of the Bureau? More favorable consideration will be given to applications which are cooperative advertising projects made available by the Bureau of Tourism.

B) Will the Project reach a new or expanded audience? The goal of tourism promotion is to encourage people from outside of given areas to travel to the area and thereby stimulate the area's economy. Projects should not be directed primarily at people who are already aware of the attractions. Will the Project encourage visitors from a distance of at least 75 miles or out-of-state? The intent of the program is to encourage travel into and throughout the State, impacting the economic growth and primary consideration will be given to projects creating the potential for overnight stays.

C) Will the Project generate overnight travel? Statistics prove travelers spending at least one night away from home spend more money and therefore will have a more positive effect on the economy of a given area. Will the Project generate overnight stays, increasing hotel/motel, and/or bed and breakfast

occupancy? Consideration will also be given to projects incorporating lodging packages.

D) What is the intended audience? Audiences may include consumers inside or outside the State, special interest groups, travel agents and tour brokers, etc.

E) Will the project aid in the promotion of tourism in Illinois?

2) Economic Impact

A) What is the potential economic impact from implementation of this Project?

B) Are there measurable ways to gauge effectiveness in terms of increased visitor spending in the area, increased employment, increased sales, increased gasoline, hotel-motel and/or retail occupation tax revenues? Plans for a follow-up evaluation and ongoing research will enhance the Project Application.

3) Duplication

The Project should not duplicate anything already available in the target market area.

(Source: Amended at 17 Ill. Reg. _____, effective _____)

- a) If a component of an electronic voting system needs to be repaired or replaced during vote tabulation on election night because of a malfunction or failure to operate, or if a sensor of an optical scanning system

STATE BOARD OF ELECTIONS

NOTICE OF PROPOSED AMENDMENTS

needs to be adjusted or recalibrated, the election authority shall run the pre-tabulation test required by Section 24A-9 of the Election Code (10 ILCS 5/24A-9) after the item of equipment has been repaired or replaced or the sensor adjusted or recalibrated, as the case may be. Before resuming vote tabulation the election authority shall retabulate the last precinct successfully tabulated before the failure occurred or the adjustment made. If the results of retabulation agree with the results produced when the precinct was originally tabulated, the election authority may resume tabulation of results with the precinct which was being tabulated when the failure occurred or the adjustment made. If the results of the retabulation of the last precinct successfully tabulated do not agree with the results of the original tabulation of that precinct, the election authority shall retabulate successive precincts in reverse order from the precinct which was being tabulated at the time the equipment failure occurred or the adjustment was made until the retabulation for a precinct agrees with the original tabulation for that same precinct. Tabulation of results shall resume with the precinct immediately following in regular order from the precinct for which retabulation agrees with the original tabulation.

b) If for any reason the pre-tabulation test identified in Section 24A-9 (10 ILCS 5/24-9) of the Election Code is required to be run again on election night after vote tabulating begins it must run accurately the first time, or tabulation shall not continue. If it does not run accurately but first time, it may, in the judgment of the election authority, be rerun until it runs accurately but in such case tabulation shall not be resumed until the election authority has determined what caused the test to run inaccurately the first time. If no cause can be identified the entire electronic voting system must be replaced and successfully tested utilizing the pre-tabulation test before tabulation may be resumed. In such latter case all precincts must be retabulated using the new system.

c) If the post-tabulation test of the electronic voting system required by Section 24A-9 of the Election Code (10 ILCS 5/24A-9) does not run accurately when it is attempted the election authority shall determine the reason for the failure of the post-tabulation test to run accurately. If no reason can be determined, or if the reason is determined to be the mechanical or electronic failure of a component of the system, the entire electronic voting system shall be replaced and successfully tested utilizing the pre-tabulation test and the entire jurisdiction retabulated.

The State Board of Elections shall, whenever possible, conduct the special tests of voting systems authorized by Section 24A-9 of the Election Code (10 ILCS 5/24A-9) on Board's own equipment at its principal office or its permanent branch office, rather than conduct such tests in the field.

a) To facilitate such testing, each supplier or vendor of electronic vote tabulation systems shall, upon written request by the State Board of Elections, provide to the State Board of Elections a current, working copy of software programs which the supplier or vendor provides to the election authorities whose voter systems are to be tested, together with instructions for the installation and use of such programs.

Section 140.8 State Examinations

Except as otherwise noted in this Section, all State written examinations will be developed, provided, and administered by Office personnel. Local instructors desiring to schedule state examinations should contact the Office to establish a time and place for the examination. While the Office will endeavor to schedule examinations at sites throughout the State as requested, the number of examination requests may necessitate delays and regional testing. Instructors requesting the State examinations be given should have facilities for the examination. When large numbers of persons are to be tested, Office personnel may request additional assistance of the facility or fire department in monitoring the administration of a test.

a) Class rooms, lecture rooms, municipal and fire protection department training rooms shall be acceptable facilities provided that space is available for the number of persons requesting to take the examination; desks or tables and chairs shall be provided by the examination center. The room in which the examination is to be given shall be a room customarily used for quiet activities and not subject to loud noise or other activities nearby which might interfere with the need for a quiet area for taking written examinations. Students must be spaced to ensure that they cannot readily observe another's answer sheet. The following specifications for the facility and the administration of the exam must be adhered to:

- 1) Candidates not present in the room at the time the proctor starts the exam will be disqualified from taking the exam.
- 2) There can be nothing on the walls at test site that could pertain to exam questions.
- 3) Test administrator must be provided a table at least 6 feet in length.
- 4) Loudspeakers, monitors, portable radios and beepers must be turned off.

The Office will maintain these scores and shall use them internally for statistical and/or employment purposes. Otherwise, the Office will not release the examination scores of any individual without the prior written approval of the individual.

ed) State certifications for qualified fire service personnel may be awarded to individuals employed both by local governmental agencies and to State of Illinois employees, after successful completion of all requirements.

g) Prerequisites. In the case of state required practical exams, a copy of the evaluator's checklist or Practical Examination Key must be submitted to the Division before certificates will be issued.

ge) No person will be allowed to take the written examination for State certification without having completed all of the above requirements. Nor will persons who are ill, or obviously under the influence of drugs or alcohol, persons on duty who may be called out during the examination. In making the determination of such impairment, the Office will consider, but is not limited to, observation of demeanor, slurred speech, odor of alcohol, general behavior and other considerations that would benefit in making such determination.

ig) The proctor will not be permitted to discuss or answer questions regarding any questions on the examination. No one will be permitted to enter once the examination has started. Students are not permitted to have notes or reference material in their possession, including calculators, and slide rules. The only paper allowed in the test center is a tablet which will be distributed in single sheets by the proctor according to the examination directions. There will be no scheduled breaks during examination.

Persons should be advised at the beginning of the examination that no one will be allowed to leave the room before completing the examination except in an emergency, and then only one at a time. The examination begins after the proctor has read the instructions, at which time all discussion will cease. Candidates will not be permitted to speak to each other or to the proctor, and all instructions to the candidates contained in the proctor instructions will be followed. The proctor will begin the examination with the words "you may begin" and the examination will end with the proctor announcing "you are to stop now".

jh) Results of examinations taken for the purpose of state certification will be retained in the individual training record file maintained for each individual in the Office. All participants who receive certification will have notification of successful completion sent to their department.

Section 140.40 --- Certified Firefighter-I (Repealed)

The Certified Firefighter-I program is designed as an intermediate step in the Firefighter-II program which is defined by the Office as the basic training requirement for fire protection personnel, and is also equivalent to the Firefighter-I level identified in NFPA-1001 (1987).

- a) Prerequisites: A candidate for Firefighter-I certification must be employed in Illinois as a fire protection person or trainee.
- b) Funding: A maximum of 150 hours is available for reimbursement funding. The Office will fund this level of training only one time. Individuals whose status is not affected by the passage of the Ordinance required in Section 140.20 (i.e., fire protection personnel who are not required by the Office to pass the Firefighter II examination) qualify for reimbursement funding for two years from the date of the passage of the Ordinance.
- e) No specific requirement in terms of hours of training or fire service experience is required; however, no person may take the State written examination for Firefighter-I certification until the local instructor and the Fire Chief sign the Request for Examination form.
- d) Instructor Requirements: The Certified Firefighter-I course must be taught by a Fire Service Instructor-I, or above, or an interim instructor.
- e) Facility Certification and Delivery Systems

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF PROPOSED AMENDMENTS

- 1) Minimum facility requirements for this level of instruction are that of a Certified Provisional Facility. (See Section 140.11.)
- 2) See Course Approval, Section 140.15.
- 3) Curriculum shall consist of a course or courses covering the knowledge and skill objectives and depth of coverage as listed in NFPA-1001 Firefighter Professional Qualifications, 1987 edition, Chapter 3. This standard is incorporated by reference and includes no later standard or edition.

g) State Certification Practical Skills Examination

- 1) Local fire departments or schools are responsible for administering the practical skills examination prepared by the Officer.

Records and documented proof of such tests must be maintained by the department/school. Local fire departments are responsible for the practical skills test of firefighters prior to the administration of the written examination for certification. The depth of the practical skills testing is determined by the Training Officer and successful completion of such tests are a prerequisite before any written examination for certification is administered. Records and documented proof of such tests must be maintained by the fire department training officer.

- A) Fire Chiefs are to acquire the identified equipment or to improvise where specific equipment is not available in the fire department or the mutual aid area to provide parallel training experiences. If every possible effort is exhausted, the Office will, at the request of the Fire Chief, substitute a local requirement where the practical skills to be tested are contrary to local policy.

All practical skill examinations, including overall end of course examinations, need not test every evolution and/or skill. The examinations must, however, satisfy the Training Officer, etc., that the candidate is able to perform proficiently in the individual areas. The examination must encompass each subject area, and a random sampling of the person's skills must include at least one third (1/3) of the required evolutions.

- 2) Concurrent Work Training Evaluation

OFFICE OF THE STATE FIRE MARSHAL

NOTICE OF PROPOSED AMENDMENTS

- A) Work which can be identified by the Training Officer as correlating with the training requirements can be counted as a training experience for purposes of reimbursement and certification. Records must be maintained and student evaluations conducted.
- B) The work activity does not qualify or ceases to qualify as a learning experience when:
- i) The student has demonstrated the required knowledge and skill for the subject area on a previous occasion or,
 - ii) The student is left to perform the task without the immediate supervision of a qualified instructor.

3) Fire Suppression-Actual Firefighting

The only activity required in the area of fire suppression as a specific skill and which is required by NFPA-1001 (1987) Firefighter Professional Qualifications applies to all levels of firefighters and requires the firefighter to demonstrate manipulating a nozzle to attack at least two live fires including a Class A and Class B fire. This function is not reimbursable since it is virtually impossible to conceive of an actual fire situation (other than a practice fire) at which a Certified Instructor and a Fire Officer who are not involved in the actual fire suppression would be independently evaluating the trainee's performance in the accomplishment of this requirement. If, however, in the opinion of the Company Officer or other persons designated by the Fire Chief or Certified Instructor, the firefighter has satisfied this requirement during an actual fire suppression activity, it is not necessary to reconstruct another fire and require that the person again perform this activity. The qualified observers may sign the individual's training record, indicating that the trainee has satisfied this requirement. This is not an activity which is measured in terms of elapsed time of performance.

- A) State Certification Written Examination. To be certified as a firefighter, candidates must take and pass the State Examination. See Section 140.8.

Director and Certified Instructor that the tasks have been 100% successfully completed.

- 2) The Practical Examination Key and the attestation must be returned to the Division before certification will be issued.

hg) State Certification Written Examination. To be certified as a Firefighter III, candidates must take and pass the State examination. A Request for Examination must be signed by a Certified Fire Service Instructor II. See Section 140.8. Individuals possessing Emergency-Medical-Technician-(EMT)-or-Paramedic-certification-are-not-required-to-take-the-Emergency-Medical-Care-section-of-the-Certified-Firefighter-III-examination. Proof-of-current-EMT-or-Paramedic-certification-is-required.

i) Firefighter III can be instructed in a series of modules. Examinations can be taken by module or by taking the complete exam.

j) Depth of coverage of the subjects listed varies for each firefighter level.

k) When an individual takes the exam by modules, the passed modules will be kept on file until all modules are passed before certification is granted.

m) When an individual elects to be trained using the modular system, he or she may select any module in any sequence; however, the individual must take the examination after each module. A passing grade on all modules is required before certification will be granted.

nn) Refresher Training.

- 1) The Certified Firefighter III is considered by the Office to be the senior technical level in the fire suppression career ladder and, therefore, is not required to progress to another level in order to maintain certification. In order to insure that Firefighter III personnel maintain their proficiency, they are encouraged to keep abreast of the state of the art by participating in refresher training. For the purpose of funding, only 1000 hours of reimbursable time per year will be funded by the Office for refresher training.

NOTICE OF PROPOSED AMENDMENTS

2) The training may consist of any or all of the subjects listed in NFPA 1001 and Firefighter III certification. The failure to participate in the annual 1000 hours of refresher training does not revoke the individual's certification, since such certification has historically been seen as a personal achievement, and maintenance of the certificate a personal commitment. Refresher training must encompass at least four subject areas annually to claim for funding; with the minimum intent to cover all subject areas at least once each five years.

3) Individuals participating in such refresher training will need to have clearly identified training records. (See Section 140.12(e))

o) An individual who is in the process of preparing or testing for Firefighter III using the NFPA 1001 (1987) standard may option to test with this standard until January 1, 1995. Section 140.305 Prerequisites for Participation for Reimbursement Funding

- a) Local governmental agencies electing to participate for reimbursement funding under paragraphs 539 and 540 of the Act, shall so provide by local ordinance. A sample ordinance may be obtained from the office. To apply for reimbursement funding the local governmental agency must also agree to abide by all rules and regulations for the training of firefighter.
- b) Individuals who are employed by local governmental agencies as a firefighter meeting Chapter 85, par. 531 et seq. which have elected to participate for reimbursement funding, and where the individual and the local government agency have abided by all the rules and regulations as promulgated by the Office, may submit claims for reimbursement funding for expenses incurred by them during the training period. Reimbursement for individuals is limited to tuition, travel expenses and room and board. Reimbursable expenses are subject to the requirements and limitations covered in this Part and Travel Regulations as promulgated by the Governor's Travel Control Board (80 Ill. Adm. Code 2800).
- c) Payments to individuals, units of local government, and governmental agencies are limited to reimbursement.

NOTICE OF PROPOSED AMENDMENTS

- B) The chairman, President or head of each of the identified organizations listed under subsection (1) shall be contacted as to whom he or she desires to have serve on any given committee. In the case of the Illinois Fire Service Institute it will be the Director who will be solicited for persons to serve.
 - i) Because each committee will deal with specific areas of expertise, the solicitation will be based on specific qualifications. Committee members shall also be solicited from various geographical areas of the state when possible, to insure input reflecting a general consensus of the total fire service.
 - ii) In considering member appointments to committees, the Division will not rely on an individual's rank in a given department, but will concentrate on that individual's area of responsibility and his or her level of certification.
- C) Committees shall not exceed 25 members, excluding employees of the State of Illinois.
- D) Committees shall be established by the Deputy State Fire Marshal of the Division of Personnel Standards & Education when a problem or issue arises in an area of firefighter training not covered by a standing committee, or when creation of a new program is under consideration. Each committee shall be designated a specific duty and area of responsibility.
- 2) The following standing committees are hereby created.
 - A) Fire Officers Committee - review applications and programs for Fire Officer certification;
 - B) Technical Review Committee - review curriculum and proposals for new programs and evaluate existing ones;

4) Statutory Authority: Implementing and authorized by the Radiation Protection Act of 1990 (Ill. Rev. Stat. 1991, ch. 111½, par. 210-1 et seq.) [420 ILCS 40].

5) A Complete Description of the Subjects and Issues Involved: The Department is proposing this amendment primarily to: (a) introduce dual metric/English (or special) units of measurement; (b) update citations to rules, standards and guidelines that are incorporated by reference; (c) modify cross references to sections in 32 Ill. Adm. Code 340 so that they will refer to provisions in that Part as proposed on April 2, 1993; and (d) make minor style changes throughout the rule. The Department is also adding a new Section 330.15, "Incorporations by Reference". This new Section sets forth general information regarding rules, standards and guidelines that are incorporated into Part 330 by reference.

In Section 330.40, subsections (a)(1) and (b)(1) are being amended to clarify that the exemption from licensing requirements for persons who

DEPARTMENT OF NUCLEAR SAFETY
NOTICE OF PROPOSED AMENDMENT

possess small quantities of radioactive material applies only to products and radioactive material that are distributed pursuant to a specific license.

Section 330.240 is being amended to clarify that the Department may, any time before expiration or termination of a license, require licensees to provide additional information in order to enable the Department to determine whether a new license application should be approved or whether an existing license should be modified or revoked.

In Section 330.250(c), the Department is adding an Agency Note to explain that, for purposes of financial surety requirements, "reclaiming" includes, but is not limited to, activities necessary to decommission a licensed facility. In addition, subsection (c)(1) is being modified to clarify that the surety requirements must be satisfied as a condition for renewal, as well as for issuance or amendment, of a radioactive materials license.

In Section 330.260, subsection (c), references to "radioactive drugs" are being changed to the more general term "radiopharmaceuticals". Also, in subsection (c)(1)(A), the Department has deleted the references to the "New Drug Application" (NDA) and "Investigational New Drug Application" (IND). The rule as amended would still permit only FDA approved radiopharmaceuticals to be dispensed or distributed.

In Section 330.280, subsection (n), the Department is deleting references to "a new drug application" which the Commissioner of Food and Drugs has approved and replacing it with a more general approval requirement. Also, in this Section, the Department is changing the "radioactive drugs" to the more general term "radiopharmaceuticals."

In Section 330.320, subsection (d), the radiation survey requirements applicable to licensees seeking to terminate their licenses are being revised to add more details regarding what information must be included in radiation survey reports.

Finally, in Section 330.900, subsections (a)(1)(B) and (b)(1)(B), the Department is proposing to delete the provisions that waive the additional notification requirement for out-of-state licensees that have provided a written schedule of activities in Illinois.

6) Will this proposed amendment replace an emergency rule currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

- 9) Are there any other proposed amendments pending on this Part? No
- 10) Statement of Statewide Policy Objectives: The requirements imposed by the proposed rulemaking are not expected to require local governments to establish, expand, or modify their activities in such a way as to necessitate additional expenditures from local revenues.
- 11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking: Comments on this proposed rulemaking may be submitted in writing for a period of 45 days following publication of this notice. The Department will consider fully all written comments on this proposed rulemaking submitted during the 45 day comment period. Comments should be submitted to:

12) Initial Regulatory Flexibility Analysis:

- A) Types of small businesses, small municipalities and not for profit corporations affected: The Department believes that these amendments impose no direct impact on any small businesses, small municipalities and not for profit corporations that are licensed by the Department.
- B) Reporting, bookkeeping or other procedures required for compliance: Section 330.320(d) specifies information that must be contained in radiation survey reports submitted by licensees seeking to terminate their licenses.

- a) Applications for specific licenses shall be filed in duplicate on forms prescribed by the Department.
- b) The Department may at any time after the filing of the original application, and before the expiration or termination of the license, require further statements in order to enable the Department to determine whether the application should be granted or denied or whether an existing license should be modified or revoked.
- c) Each application shall be signed by the applicant or licensee or a person duly authorized to act for and on his behalf.
- d) An application may include a request for a license authorizing one or more activities. The Department will not grant the request if the proposed activities are not under the control of the same facility, administrator and radiation safety officer. In addition, when evaluating the request, the Department will consider complexity, similarity and proximity of the proposed activities.
- e) In the application, the applicant may incorporate by reference information contained in previous applications, statements, or reports filed with the Department provided such references are clear and specific.
- f) Public inspection of applications and other documents submitted to the Department pursuant to this Section shall be in accordance with 2 Ill. Adm. Code 1076 and the requirements of the Freedom of Information Act (Ill. Rev. Stat. 1989 1991, ch. 116, par. 201 et seq.) [5 ILCS 140].

Section 330.250 General Requirements for the Issuance of Specific Licenses

- a) A license application will be approved only if the Department determines that:
 - 1) The applicant is qualified by reason of training and experience to use the material in question for the purpose requested in accordance with this Part in such a manner as to minimize danger to public health and safety or property;
 - 2) The applicant's proposed equipment, facilities and procedures are adequate to minimize danger to public health and safety or property;
 - 3) The issuance of the license will not be inimical to the health and safety of the public; and
 - 4) The applicant satisfies any applicable special requirements in ~~Sections 330.260, 330.270, or 330.280~~ 32 Ill. Adm. Code: Chapter II, Subchapters b and d.
- b) Environmental Report, Commencement of Construction
 - 1) In the case of an application for a license to receive and possess radioactive material for commercial waste disposal by land burial, or for the conduct of any other activity which the Department determines will significantly affect the quality of the environment, a license application ~~must~~ shall be reviewed and approved by the Department before commencement of construction of the plant or facility in which the activity will be conducted. Issuance of the license shall be based upon a consideration by the Department of the environmental, economic, technical and other benefits in comparison with the environmental costs and available alternatives, and a determination that the action called for is the issuance of the proposed license, with any appropriate conditions to protect environmental values;

ILLINOIS REGISTER

DEPARTMENT OF NUCLEAR SAFETY
NOTICE OF PROPOSED AMENDMENT

- 2) Commencement of construction prior to such conclusion shall be grounds for denial of a license to receive and possess radioactive material in such plant or facility. As used in this paragraph subsection the term "commencement of construction" means any clearing of land, excavation, or other substantial action that would adversely affect the environment of a site. The term does not mean site exploration, necessary borings to determine foundation conditions, or other preconstruction monitoring or testing to establish background information related to the suitability of the site or the protection of environmental values.

- c) Financial Surety Arrangements for Reclaiming Sites. For purposes of this subsection, "reclaiming" shall mean returning property to a condition or state such that the property no longer presents a public health or safety hazard or threat to the environment.

AGENCY NOTE: For purposes of subsection (c) above, the term "reclaiming" includes but is not limited to those activities necessary to decommission the licensed facility (i.e., to remove (as a facility) safely from service and reduce residual radioactivity to a level that permits release of the property for unrestricted use and termination of license).

- 1) Unless exempted by subsections ~~(c)~~(4) or ~~(c)~~(5) below, issuance, renewal, or amendment of a license shall be dependent upon satisfactory financial surety arrangements to ensure the protection of the public health and safety in the event of abandonment, default, or other inability of the licensee to meet the requirements of the Act, this Part, or 32 Ill. Adm. Code: Chapter II, ~~Subparts~~ Subchapters b and d. Self insurance, or any arrangement which essentially constitutes self insurance, will not satisfy the surety requirements since such arrangement provides no further assurance than being without insurance. Determination of satisfactory surety arrangements shall be subject to the following conditions:

- A) Financial surety arrangements for site reclamation may consist of surety bonds, certificates of deposit, deposits of government securities, letters of credit, insurance policies, or any combination of the above for the categories of licenses listed in subsection ~~(c)~~(3) below. The amount of funds to be ensured by such surety arrangements shall be based on Department-

approved reclaiming cost estimates for disposal of all radioactive material authorized under the license, including removal of all radioactive contamination caused by authorized material to a level in conformance with 32 Ill. Adm. Code 340. Appendix 6 A. The Department shall consider the following in approving the cost estimate of the financial surety requirements for each individual applicant or licensee:

- i) The probable extent of contamination through the use or possession of radioactive material at the facility or site and the probable cost of removal of such contamination to a level in conformance with 32 Ill. Adm. Code 340. Appendix 6 A. This consideration shall encompass probable contaminating events associated with the licensee's methods or modes of operation and shall be based on factors such as quantities, half-lives, radiation hazards and toxicities, and chemical and physical forms;
- ii) The extent of possible ~~off-site~~ onsite property damage caused by operation of the facility or site;

- iii) The cost of removal and disposal of sources of radiation, which are or would be generated, stored, processed, or otherwise present at the licensed facility or site; and

- iv) The costs involved in reclaiming the property on which the facility or site is located, and all other properties contaminated by radioactive material authorized under the license.

- B) The financial surety arrangements shall be filed with and maintained by the Chief, Division of Radioactive Materials of the Department (hereafter referred to as the Division Chief) in a dollar amount greater than or equal to the amount approved by the Department and determined necessary to provide for the protection of public health and safety in accordance with subsection ~~(c)~~(1)(A) above.

- i) A licensee or applicant shall submit a cost

estimate for approval by the Department in accordance with subsection ~~(e)(1)(A)~~ above.

- ii) The licensee's surety arrangements may be reviewed annually by the Department and be adjusted to recognize any increases or decreases resulting from inflation or deflation, changes in engineering plans, activities performed and any other condition affecting costs for reclaiming to ensure that sufficient surety is retained to cover liability which remains until license termination.
- iii) When a change in activities not requiring a license amendment would raise the cost estimate for reclaiming to an amount greater than the amount of financial surety currently filed with the Division Chief, the licensee shall, within ~~sixty~~ 60 days after the increase, file additional financial surety at least equal to this increase.
- iv) When a license amendment would raise the cost estimate for reclaiming to an amount greater than the amount of financial surety currently filed with the Division Chief, the amendment shall not be issued until the required surety arrangements are established.
- v) When the current reclaiming cost estimate decreases, upon the written request of the licensee, and provided that the decrease is verified by the Division Chief, the Division Chief shall reduce the amount of financial surety required for the facility to the amount of the current reclaiming cost estimate. Upon such occurrence, the Division Chief shall, considering the financial surety arrangements on file, either cause to be released to the licensee collateral which has been deposited equal to this reduction or allow the licensee to substitute for the arrangements on file new arrangements in the reduced amount.
- vi) The term of the surety arrangement shall be for the period from issuance of the license until

termination of the license by the Department in accordance with Section 330.320.

- vii) Upon termination of the license, the Division Chief will release all surety amounts not previously forfeited by the licensee.
- C) The Director:
 - i) May order that any financial surety filed by a licensee pursuant to subsection (c) be forfeited to the State if the Director determines that the licensee has failed to perform reclaiming to assure health and safety from radiation hazards and comply with other license requirements or orders pertaining to reclaiming. Such forfeiture action shall follow the procedures provided in 32 Ill. Adm. Code 200.
 - ii) Shall, upon the date of issuance of the final order described in subsection ~~(e)(1)(G)(i)~~ above, notify the Attorney General who shall collect the forfeiture if voluntary payment is not made within ~~thirty~~ 30 days of the date of issuance of the final order.
 - iii) Shall deposit all funds from forfeited financial sureties in a temporary, locally-held trust fund to be administered by the Department for site reclaiming.
- D) The licensee or applicant ~~must~~ shall choose from the financial surety arrangements specified in Section 330. Appendix G of this Part.
- E) The wording of the financial surety may be identical to the wording of the corresponding arrangement in Section 330. Appendix H ~~of this Part~~ and ~~must~~ shall contain provisions described in Section 330. Appendix G of this Part.
- F) Use of Multiple Financial Surety Arrangements. The licensee or applicant may utilize more than one financial surety arrangement per facility to satisfy the requirement specified in subsection ~~(e)(1)~~ above. These arrangements are limited to bonds supported by

DEPARTMENT OF NUCLEAR SAFETY

letters of credit, insurance and securities. The arrangement ~~must~~ shall be as specified in Section 330-Appendix G ~~of this Part~~, except that it is the combination of arrangements, rather than the single arrangement, which ~~must~~ shall provide financial surety for the necessary amount.

- G) Use of Financial Surety Arrangement for Multiple Facilities and/or Multiple Licensees at a Facility. The licensee or applicant may use a financial surety arrangement specified in Section 330-Appendix G ~~of this Part~~ to meet the requirements of subsection ~~(c)(1)~~ above for more than one licensee he holds, or more than one facility he owns, or operates in Illinois. The arrangement submitted to the Division Chief shall include a list indicating, for each facility, the license number(s), name(s), address(es) and amount(s) of funds for reclaiming assured by the arrangement. The amount of funds available through the arrangement shall not be less than the sum of the sureties that would be available if a separate arrangement had been filed and maintained for each license or facility. If more than one license exists for a facility, the amount of funds for each license shall be specified.

- H) Substitution of Alternate Financial Surety Arrangements. The licensee may substitute alternate financial surety arrangements specified in Section 330-Appendix G ~~of this Part~~ meeting the requirements of subsection ~~(c)(1)~~ above for the financial surety already filed with the Department for the facility. However, the existing arrangements shall not be released by the Division Chief until the substitute financial surety arrangements have been received and approved.

- I) Any applicant or licensee who fulfills the requirements of subsection ~~(c)(1)~~ above by obtaining a surety bond, letter of credit, or insurance policy, will be deemed to be without the required financial surety in the event of bankruptcy of the issuing institution, or a suspension, or revocation of the authority of the institution issuing the surety bond, letter of credit, or insurance policy to issue such instruments. The applicant or licensee ~~must~~ shall

establish other Department-approved financial surety within ~~thirty~~ 30 days after such an event.

- 2) The arrangements required in subsection ~~(c)(1)~~ above shall be established prior to issuance or amendment of the license to assure that sufficient funds will be available for reclaiming;
- 3) The following specific licensees are required to make financial surety arrangements:
- A) Major processors as defined in 32 Ill. Adm. Code 310.20;
 - B) Waste handling licensees as defined in 32 Ill. Adm. Code 310.20;

- 4) The following persons are exempt from the requirements of subsection ~~(c)(1)~~ above:
- A) All State, local, or other government agencies, unless they are subject to subsection ~~(c)(3)(A)~~ or ~~(c)(3)(B)~~ above;

AGENCY NOTE: For purposes of subsection (c), "government agencies" shall not include federal or state contractors, non-governmental recipients of government grants, or non-governmental medical institutions.

E) The out-of-state licensee shall not transfer or dispose of radioactive material possessed or used under the general license provided in subsection (b)(1) above except by transfer to a person:

- i) Specifically licensed by the Department or by another Licensing State to receive such material, or
- ii) Exempt from the requirements for a license for such material under Section 330.40.

2) Notwithstanding the provisions of subsection (b)(1) above, any person who holds a specific license or equivalent authorization issued by a Licensing State authorizing the holder to manufacture, transfer, install, or service a device described in Section 330.220(b)(1) within areas subject to the jurisdiction of the licensing body is hereby granted a general license to install, transfer, demonstrate, or service such a device in this State provided that:

A) Such person shall file a report with the Department within ~~thirty (30)~~ days after the end of each calendar quarter in which any device is transferred to or installed in this State. Each such report shall identify each general licensee to whom such device is transferred by name and address, the type of device transferred and the quantity and type radionuclide and activity of radioactive material contained in the device;

B) The device has been manufactured, labeled, installed and serviced in accordance with applicable provisions of the specific license or equivalent authorization issued to such person by a Licensing State;

C) Such person shall assure that any labels required to be affixed to the device under regulations of the authority ~~which~~ that licensed or otherwise authorized manufacture of the device bear a statement that "Removal of this label is prohibited"; and

D) The holder of the specific license or equivalent authorization shall furnish to each general licensee to whom he transfers such device or on whose premises he installs such a device a copy of the general

license contained in Section 330.220(b) or in equivalent regulations of the agency having jurisdiction over the manufacture and distribution of the device.

- 3) The Department may withdraw, limit, or qualify its acceptance of any specific license or equivalent ~~licensing document~~ authorization issued by a Licensing State, or any product distributed pursuant to such ~~licensing document~~ license or equivalent authorization, if the Department determines that had the out-of-state licensee been licensed by Illinois, the licensee's license would have been subject to action under Section 330.500 or 32 Ill. 1 Values are given in Column I only for those materials normally used as gases.

2 Bq or $\mu\text{Ci/g}$ for solids.

NOTE 1: Many radioisotopes transform into isotopes which are also radio-active. In expressing the concentrations in this Appendix A of this Part, the activity stated is that of the parent isotope and takes into account the daughters.

NOTE 2: For purposes of Section 330.40 where there is involved a combination of isotopes, the limit for the combination should be derived as follows: Determine for each isotope in the product the ratio between the radioactivity concentration present in the product and the exempt radioactivity concentration established in this Appendix A for the specific isotope when not in combination. The sum of such ratios may not exceed "1".

EXAMPLE:

Concentration of Isotope A in Product	+
Exempt Concentration of Isotope A	
Concentration of Isotope B in Product	
Exempt Concentration of Isotope B	

is less than or equal to 1

NOTE 3: To convert $\mu\text{Ci/ml}$ to SI units of megabecquerels per liter, multiply the above values by 37.

EXAMPLE: Zirconium (40) Zr-97 ($2 \times 10^{-4} \mu\text{Ci/ml}$ multiplied by 37 is equivalent to $7.4 \times 10^{-4} \text{MBq/l}$).

5) A Complete Description of the Subjects and Issues Involved:

Section 19 of the Illinois Optometric Practice Act of 1987 authorizes the Department of Professional Regulation to provide by rule a schedule of fees to be paid for certificates of registration by all applicants.

This rulemaking provides for the following fee increases: optometrist license application (\$200 to \$250), topical ocular pharmaceuticals certificate application (\$130 to \$150), ancillary optometric license application (\$80 to \$100), application for licensure by endorsement (\$200 to \$250), renewal of an optometrist license (\$100 to \$125 per year), renewal of a topical ocular pharmaceutical certificate (\$25 to \$37.50 per year), renewal of an ancillary optometry license (\$25 to \$50 per year), renewal of ancillary topical ocular pharmaceutical certificate (\$10 to \$37.50 per year) and renewal as a sponsor of continuing education (\$50 to \$125 per year).

The fees are being increased to cover projected costs of maintaining current service levels. In addition to maintaining current service levels, the profession has indicated a desire for program changes which will result in increased costs.

NOTICE OF PROPOSED AMENDMENTS

- 1) The Heading of the Part: PROCEDURES OF THE DEPARTMENT OF STATE POLICE MERIT BOARD
- 2) Code Citation: 80 Ill. Adm. Code 150

150.210 Amendment
150.310 Amendment
150.320 Amendment

150.430 Amendment
- 4) Statutory Authority: Ill. Rev. Stat. 1991, ch. 121, par. 307.8, 307.9 and 307.10
- 5) A Complete Description of the Subjects and Issues Involved:

150.210 and 150.320 - The education requirement for the Special Agent rank is being eliminated from Merit Board rules because of the method the Illinois State Police utilizes to select officers for this position. Currently all Illinois State Police Sworn Officers are hired as cadets. As of April, 1987 any cadet hired by the Illinois State Police had to possess 60 semester or 90 quarter hours of college from an accredited college or university. After successful completion of the ISP training academy, field training officer's program and probationary period, a sworn officer must serve as a trooper before becoming an agent. Illinois State Police command will select the most qualified officers to fill investigative positions from those presently working in patrol assignments or other segments of the agency.

150.310 and 150.430 d), e), f) and g) - The ranks of Special Agent Sergeant, Special Agent Master Sergeant, Special Agent Lieutenant, Special Agent Captain, and Special Agent Major have been eliminated. The creation of the Division of Operations from the merger of the Divisions of State Troopers and Criminal Investigation obviates the need for these titles.

150.410 - The Board voted to offer the promotional examination every twelve months for the ranks of Sergeant and Master Sergeant. The promotional examination will still be offered every twenty-four months for the ranks of Lieutenant, Captain, and Major. The Board, after meeting with the Illinois State Police, the Command Officer's Association and the Fraternal Order of Police, has made these time changes in order to improve the sworn promotional process.

150.430 d) and e) - The performance evaluation has been renamed to performance appraisal to redirect the emphasis on performance rather than a numerical score.

150.430 g) - The promotional certification lists for Sergeant and Master Sergeant have previously been divided by districts for the patrol divisions and areas for the investigative divisions. Due to the merger of the patrol and investigative divisions into the one division, there is no need for separate lists. The certification lists for Sergeant and Master Sergeant will be by districts as defined jointly by the Illinois State Police and the Illinois State Police Merit Board.

In the event of declination, that candidate with the next highest total promotional score becomes equally eligible for promotion; however, in the event of a tied score, all candidates obtaining such score shall be equally eligible for promotional consideration;

i) Upon written notification from the Department to the Board that a candidate on the certification list has been suspended, is on leave of absence, or has applied for disability benefits, the Board will remove the candidate's name from the certification list. Section 1.2215 Minority and Female-Owned Business

Introduction

The Minority and Female Business Enterprise Act (111. Rev. Stat. 1991, ch. 127, par. 132.601, et seq.) [30 ILCS 575] (Act) authorizes the establishment of sheltered markets for minority and female-owned business, sets a minimum 10% expenditure goal for State contracts, and creates the Minority and Female Business Enterprise Council ((Council)) to oversee the Minority and Female Business Enterprise Act.

Goal 1. The Governor, all departments, officers, boards, commissions, institutions and bodies politic and corporate of the State including the governing boards of the various State colleges and universities (from this point forward referred to as state agency or agency unless specifically exempted) and excepting other constitutional officers, shall establish a goal that at least 10% 12% of the dollar value of State contracts be awarded to minority and female-owned businesses. Contracts representing 50% of the dollar value associated with the established goal shall be awarded to minority-owned businesses and the other 50% awarded to female-owned businesses. Of that 12%, 5% shall be for female-owned businesses, 2% for businesses owned by persons with disabilities and not-for-profit agencies for the disabled and the remaining 5% for other minority-owned businesses.

Agencies subject to the goal established above shall include under this program all contracts funded in whole or in part with funds appropriated by the General Assembly, unless exempted elsewhere in this Part. Funds shall be excluded from the Minority and Female Business Enterprise Act program if receipt

Agencies subject to the goal established above shall include under this program all contracts funded in whole or in part with funds appropriated by the General Assembly, unless exempted elsewhere in this Part. Funds shall be excluded from the Minority and Female Business Enterprise Act program if receipt

of those funds would be jeopardized by including them in the program.

2) The following are not considered to be contracts or resulting expenditures subject to the Act:

- A) employee wages, salary and other payroll related costs
- B) contracts between State agencies not including payments to private vendors
- C) contracts with other governmental entities
- D) refunds of money
- E) payments of money to individuals or groups in the nature of reimbursement, settlement, entitlement, or assistance
- F) where the contract is subject to federal reimbursement

d) Council Review of Contract Categories

The Council shall, pursuant to Section 7(2) of the Minority and Female Business Enterprise Act, review each appropriation object as found in "AN ACT in relation to State finance" the State Finance Act (Ill. Rev. Stat. 1991, ch. 127, par. 145f 137 et seq.) [30 ILCS 1051 and detail objects found in the Comptroller's Uniform Statewide Accounting System Manual. If after investigation it is determined that one or more minority or female-owned firms are currently capable of providing goods or services in particular categories, those categories shall remain as subject to the goal. If, however, investigation shows no minority or female-owned firms are currently engaged in providing the particular good or service in question then the Council shall consider removing the category and associated expenditures from the goal for the current fiscal year. Such removal shall occur only if the Council also finds that there is no reasonable expectation that minority or female-owned firms will enter the field during that fiscal year. Any action to remove a category from the goal under this Section shall be by written resolution passed by the Council. Pursuant to Section 7(2) of the Minority and Female Business Enterprise Act the Council has determined the following detail objects are exempt from the goal.

- Assistance Payments to Individuals
- Association Dues
- Awards and Grants to Students
- Awards, Benefits and Treatment Expenses - Injured Employees

e) Council Review of Specific Contracts

Any State agency may ask that the Council exempt specific contracts from the goal. Justification of the exemption request must include documentation of outreach efforts to identify and use Minority Business Enterprise (MBE's) and Female Business Enterprise (FBE's), the anticipated expenditures in each area where an exemption is requested and the total agency appropriation. Upon written request by any State agency the Council shall exempt specific contracts from the goal if the agency can show that a diligent effort failed to locate one or more minority or female-owned businesses that could perform the contract at a reasonable price. A diligent effort requires solicitation of appropriate vendors from the master vendor list maintained by the Council, checking with the Council for updates to the list, and advertising in the official State Newspaper and locally if in the judgment of the procuring agency it is more likely to reach minority and female-owned business. In addition, when the decision to procure is first made the procuring agency shall provide as much information about the procurement as is then available to the Secretary and shall provide a copy of the Invitation for Bid, Request for Proposal or other solicitation information when in final form. Whether price quoted is reasonable will be determined by the Council based upon current market prices, historical prices, prices received by other agencies for similar goods or services, the policy of the Minority and Female Business Enterprise Act to promote minority and female-owned business and other such relevant factors. Any action regarding a request for specific exemption shall be by resolution passed by the Council.

f) Goal Measurement

- 1) The goal shall be measured on a full fiscal year basis. The goal shall be measured against the total amount of covered expenditures. Expenditures not covered are those mentioned in subsections (c)(2), (d) and (e) above.
- 2) Certain procuring agencies such as the Department of Central Management Services and the Capital Development Board are responsible for establishing contracts for other (user) agencies. Those procuring agencies shall be responsible for meeting the goal for such contracts even though the user agency may have the appropriation to fund the contract. To properly account for the goal in these situations the following procedures shall be followed:

- A) The user agency shall review its budget and subtract from its appropriation in each major or minor object code the

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF ADOPTED AMENDMENTS

amount anticipated to be spent on contracts established by the procuring agency. The amount anticipated to be spent on contracts established by the procuring agency shall be reported to the Department of Central Management Services.

- B) Those amounts reported by user agencies to Department of Central Management Services shall be assigned by the Secretary to the appropriate procuring agency. Such amounts will be included in the amount upon which the procuring agency goal is based. This procedure does not result in money actually being transferred from the user agency to the procuring agency. Rather, the transfer is for compliance plan accounting purposes only.
- C) If a procuring agency delegates procurement authority to a user agency, the procuring agency's goal base shall be reduced in amount of the delegation and the user agency's goal base shall be increased in like amount.
- D) If the user agency transfers money from a line subject to procuring agency authority, the procuring agency's goal base shall be reduced by that amount and the user agency's goal base in the major or minor object code receiving the transfer shall be increased.

g) Minority and Female Status

- 1) Minority or female-owned business refers to for-profit enterprises regardless of form of organization (sole proprietorship, partnership or corporation).
- 2) A female-owned business shall be counted or included for sheltered market and goal purposes as a female-owned business regardless of the ethnicity of the female owner or owners.
- 3) For a business to qualify as minority-owned, only those minorities who are male shall be counted or included for sheltered market and goal purposes except that a firm which is owned 50% by minority males and 50% by minority females shall be considered a minority-owned business for purposes of the Act.
- 4) A business owned by a person with a disability or a not-for-profit agency for the disabled shall be counted or included for sheltered market and goal purposes as a business owned by a person with a disability regardless of the ethnicity or gender of the owner or owners. Said classification will be made for the sole purpose of facilitating consistent accounting of agency contract awards to businesses covered by the Minority and Female Business Enterprise (WAFBE) Act and is not intended

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF ADOPTED AMENDMENTS

to preclude such businesses or not-for-profit agencies from receiving any contract that may be awarded under the MAFBE Act or any other contract award procedure used by State agencies and universities.

h) Sheltered Market

- 1) Procuring agencies are authorized to limit prospective vendors to minority and/or female-owned businesses or to require that vendors utilize minority and female-owned subcontractors for certain categories of contracts or for specific contracts. When a sheltered market set-aside is made the advertisement and/or bid document, if applicable, shall clearly state the contract is available for only minority and/or female-owned business. Sheltered market set-asides may be effective for such period of time and for such number of contracts as the Procuring Agency determines is necessary to reach the goal.
- 2) Sheltered market set-asides shall be used by procuring agencies as the primary means of meeting the contracting goal when the quarterly progress reports indicate the goal established in the agency's compliance report is not or will not be met and the goal is not modified by mutual agreement between the agency and the Department.
- 3) Each procuring agency shall notify the Secretary in writing ten days prior to establishment of a set-aside.
- 4) If the procuring agency determines that acceptance of the set-aside bid will result in payment of an unreasonable price, the procuring agency shall reject the bids. The agency shall then either rebid under the set-aside or withdraw the set-aside designation for the particular procurement. Before a set-aside may be withdrawn, the procuring agency shall submit to the Secretary a written statement detailing why the price given is unreasonable. The Secretary shall respond within three working days approving the withdrawal of the sheltered market if, based upon current market prices, historical prices, prices received by other agencies for similar goods or services, the policy of this Act to promote minority and female-owned business and other such relevant factors, the price appears to be unreasonable. If the Secretary determines the price is reasonable the request to withdraw will be denied. If no answer is received the set-aside may be withdrawn. When a set-aside is withdrawn, the procuring agency shall notify each minority or female-owned firm that bid explaining why the set-aside was withdrawn. The procuring agency shall provide a copy of the notice to the Secretary.
- 5) Procuring agencies shall consider reducing or eliminating bond

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF ADOPTED AMENDMENTS

- 6) requirements when allowed by law and when the reduced bond amount would adequately protect the State's interests.
- 6) Any contract awarded to a minority or female-owned business pursuant to this Section may contain a provision allowing advance or progress payments or both. A construction contract may not contain an advance payment provision. The advance or progress payment provision may be added to a contract at any time by agreement of the parties. Procuring agencies shall consider initiating use of such provisions and shall consider requests from minority and female-owned businesses to include such provisions in State contracts. Section 9.05 of "AN-ACI-# ~~statute-to-State-finance~~ the State Finance Act (Ill. Rev. Stat. 1991, ch. 127, par. 145f) [30 ILCS 105/9.05] may be applicable to contracts with such provisions.
- 7) Only certified minority and female-owned businesses may participate in sheltered markets.
- 8) The governing boards of State colleges and universities are not required to comply with this subsection (h) and may establish their own rules governing topics described in this subsection (h).
- 1) Subcontracting
 - 1) Agency goals may be satisfied in part by counting expenditures made by State vendors to certified minority and female-owned businesses as subcontractors.
 - 2) Agencies may require that vendors agree to contract with minority or female-owned business as subcontractors so that up to 10% of the project costs are paid to the minority or female-owned subcontractor.
 - 3) Agencies shall not require that a vendor enter into subcontracts with minority and female-owned business when subcontracting is not necessary for the vendor to perform.
 - 4) When minority or female-owned subcontractors are required, the vendor may be required to designate them by name and anticipated expenditure as a part of the bid. Alternatively the bid may merely require that the vendor hire the necessary subcontracting to meet the subcontractor expenditure requirement.
 - 5) If no vendor can locate minority or female-owned subcontractors willing to subcontract or if a designated minority or female-owned subcontractor is later unable or unwilling to perform, the vendor shall be excused from having to comply with

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF ADOPTED AMENDMENTS

the requirement provided a good faith effort was made to locate or replace the needed minority or female-owned subcontractor.

- 6) Good Faith Effort
 - A) A good faith effort shall, at a minimum, consist of the following:
 - i) contacting the Minority and Female Business Enterprise Division of the Department of Central Management Services (Division) at least 15 days prior to need and requesting referrals from the certified vendor list and from any other list maintained by the Division.
 - ii) advertising in the Official State Newspaper or a local newspaper as time permits.
 - iii) contacting appropriate organizations such as unions, contractor associations, and minority or female oriented organizations.
 - B) Any vendor claiming good faith relief must fully document, in writing, the steps taken to obtain minority and female-owned subcontractors. The procuring agency may require additional information if the submittal does not meet the criteria stated above.
- 7) If a good faith exception is given, the procuring agency shall notify the Secretary of the Minority and Female Business Enterprise Council of the exception and shall include all pertinent information.
- 8) A vendor who obtains a contract requiring hiring of minority and female-owned subcontractors and who fails to do so and who does not qualify for a good faith exception is subject to having the contract cancelled and shall be liable for any damages the State may suffer because of the cancellation and need to find a substitute contractor.
- j) Minority and Female-Owned Business Certification
 - 1) Each minority and female-owned business, whether in a direct or subcontract relationship with the State, must be certified in accordance with the provisions of this Part established by the Council before the business is eligible to bid for or accept a contract or subcontract under the set-aside authorized by subsection (h). The primary purpose of the certification process is to determine if ownership is by minorities or females and to determine if minorities or females have operational control of the firm.

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF ADOPTED AMENDMENTS

- 2) No agency may count expenditures with a non-certified vendor toward meeting the goal.
- 3) Vendors shall be self-certified upon submission of the Bidder's Application Form issued by the Department of Central Management Services and approved by the Council provided the information on the form is complete and accurate and indicates on its face that it is a minority or female-owned business as defined by the Act. This self-certification is valid until revoked for failure to provide additional information necessary to complete the Bidder's Application Form or for failure to comply with program eligibility requirements of the Minority and Female Business Enterprise Act or of this Part.
- 4) The full certification procedure is more detailed and requires that the Secretary (Manager of the Minority and Female Business Enterprise Division of the Department of Central Management Services) make determinations. The Secretary shall present, annually, a plan for subjecting self-certified firms to the full certification procedure. Such plan shall give first priority to those self-certified firms who have been or are about to be awarded a contract under the program. After that, priority will be determined by the date of the bidder's application form. In addition, the Secretary will in the event of an internal or third party challenge to the status of any self-certified firm conduct a full certification. The full certification procedure is outlined below.
 - 5) Application
 - A) The firm seeking certification must obtain a MBE/FBE application package which includes:
 - i) A letter of transmittal summarizing the program.
 - ii) Form IL-401-1318 Application for MBE/FBE Certification.
 - iii) Form IL-401-1319 Application for MBE/FBE Joint Venture Certification Application.
 - B) Form IL-401-1318 or IL-401-1319 must be completed, and all required attachments to meet the tests under subsections (j)(11), (j)(12), (j)(13), (j)(14) and (j)(15), or a written explanation of their absence, must be submitted before a determination of eligibility can be made. A sufficient explanation for the absence of required attachments is that they do not exist or do not apply to the applicant. The application package may be obtained from the Minority and Female Business Enterprise Division

- i) date of application
- ii) date received
- iii) name of firm
- iv) name of principal (usually the President)
- v) address
- vi) telephone number
- vii) type of certification sought (MBE or FBE)
- viii) nature of the firm's business (products or services provided)

- B) The same information will be recorded in the applicant's file on a form entitled "Receipt of Application Report".

7) The Initial File Review for Accuracy and Completeness

- B) The application form is signed by the owner or manager and notarized. The notary cannot be an owner or a shareholder.
- C) Missing documents or explanation of their absence will be noted, and the applicant will be requested to comply with an information request. If the applicant has indicated the firm has certified status through another organization, but no letter of certification has been included, the letter shall be requested at this time.
- D) Beginning at this point, notes on all phone calls and other contacts with the applicant will be recorded on the MBE/FBE interview form.

Certification by other entities such as state and local governments or vendor associations will be accepted by the Council, provided that the other entities' certification procedures equal or exceed the standards set forth in this Part and provided that the Council has investigated their certification procedures and has entered into an agreement that the standards will not be changed without prior notification to the Council. The Division staff shall ensure that the other entities' certification requirements continue to equal or exceed the standards set forth in this Part and can therefore be accepted by the Council. The Division will accomplish this by annually reviewing the other entities' requirements and verifying that they equal or exceed standards of this Part. If the other entities requirements no longer equal or exceed the requirements of this Part and they refuse to make needed adjustments, the Division will no longer accept that entities' certifications. For the impact to be significant in terms of employment, the business would have to hire new employees with a full time equivalence to 50% of their work force and at least 51% of those new hires must be minority or female individuals. For the impact to be significant in terms of use of subcontractors or suppliers, the business must direct 75% of the value of the contract to minority or female owned subcontractors or suppliers. 113.155	Amendment	August 13, 1993 (17 Ill. Reg. 13380)

- 15) Summary and Purpose of Amendments: These proposed amendments are required to conform to Public Laws 102-237 and 101-610 regarding the exemption of income and assets under the Plan to Achieve Self-Support (PASS) and the exemption of payments under Title I of the National and Community Service Act of 1990. The purpose of the PASS program is to help individuals achieve self-support. The PASS provision is available to Supplemental Security Income (SSI) recipients who are disabled or blind. With Social

Security Administration's approval, a PASS allows these individuals the opportunity to set aside income and resources for education, vocational training, starting a business, or other activities that would help lead to self-sufficiency. The money thus set aside is not counted toward SSI eligibility. This rulemaking exempts PASS funds and income received under Title I of the National and Community Service Act of 1990.

Section 113.141 Exempt Assets

- a) The following assets are exempt from consideration in determining eligibility for assistance and the amount of the assistance payment:

- 1) Homestead property

Section 113.141(a)(2) (continued)

- B) Regardless of the value, personal effects and household goods are exempt in determining the amount allowed as the Community Spouse Asset Allowance (as described at 89 Ill. Adm. Code 120.386).
- 3) Resources (e.g., land, buildings, equipment and supplies or tools) necessary for self-support up to \$6,000 of the individual's equity in the income producing property, provided the property produces a net annual income of at least 6% of the excluded equity value of the property. The equity value in excess of \$6,000 is applied toward the asset disregard. If the activity produces income less than 6% of the exempt equity due to reasons beyond the individual's control (for example, the individual's illness or crop failure) and there is a reasonable expectation that the individual's activity will increase to produce income equal to 6% of the equity value (e.g., the medical prognosis is that the individual is expected to respond to treatment or drought resistance corn will be planted), the property is exempt. If the individual owns more than one piece of property and each produces income, each is looked at to see if the 6% rule is met and then the amount of the individual's equity in all of those properties are totalled to see if the total equity is \$6,000 or less.
- 4) Automobile
 - A) exclude one automobile, regardless of value, used by the client, spouse, or other dependent if:
 - i) it is necessary for employment;
 - ii) it is necessary for the medical treatment of a specific or regular medical problem;
 - iii) it is modified for operation by or transportation of a handicapped person;
 - iv) it is necessary because of factors such as climate, terrain or distance to provide necessary transportation to perform essential daily activities; or
 - v) one vehicle for each spouse is exempt in determining the amount allowed as the Community Spouse Asset Allowance (as described at 89 Ill. Adm. Code 120.386).

Section 113.141(a)(4) (continued)

- B) if not excluded in subsection (a)(4)(A) above exclude one automobile to the extent the fair market value does not exceed \$4500. Apply the excess fair market value toward the asset disregard (see Section 113.142). The Department will determine fair market value in accordance with 89 Ill. Adm. Code 121.57(b)(2)(D)(iv).
- C) for all other automobiles, apply the equity value (fair market value minus any encumbrance) toward the asset disregard (see Section 113.142).
- 5) Life insurance policies with a total face value of \$1,500 or less and all term life insurance policies. If total face value exceeds \$1,500, the cash surrender value must be counted as a resource.

b) Burial spaces and funds are exempt as follows:

- 1) Burial spaces which are intended for the use of the individual, his or her spouse, or any other member of his or her immediate family (i.e., immediate family is defined as an individual's minor and adult children, including adopted children and step-children, an individual's brothers, sisters, parents, adoptive parents, and the spouses of these individuals).
- 2) Funds set aside for the burial expenses of the individual and his or her spouse, subject to a limit of \$1,500 each. This limit will be reduced by the face value of any excluded life insurance policy and the amount of any funds held in an irrevocable trust or other irrevocable arrangement which are available for burial expenses.
- 3) Interest earned on excluded burial funds and appreciation in the value of excluded burial arrangements which occurred the earlier of the date of first SSI eligibility or the date of AABD eligibility, but no earlier than November 1, 1982 (see 20 CFR 416.1231(b)(5)(1989)).
- c) Assets necessary for fulfillment of an approved plan for achieving self support.
- d) Trust funds are exempt as follows:
 - 1) The principal of a trust fund only when the instrument establishing the trust specifically states the principal cannot be impaired.

Section 113.141(d) (continued)

- 2) The principal of a trust fund established under the Self Sufficiency Trust Fund Program (Section 5-118 of the Mental Health and Developmental Disabilities Code, Ill. Rev. Stat. 1989, ch. 91 1/2, par. 5-118).
- e) Assets excluded by express provision of 20 CFR 416.1236(1989).
- f) Donations or benefits from fund raisers held for a seriously ill client provided the client or a responsible relative of the client does not have control (e.g., not available to the client or the responsible relative) over the donations or benefits or the disbursement of donations or benefits.
- g) Payments made to veterans who receive an annual disability payment or to the survivors of deceased veterans who receive a one time lump sum payment from the Agent Orange Settlement Fund or any other fund referencing Agent Orange product liability under P.L. 101-201.
- h) Money received from the Social Security Administration under a Plan to Achieve Self-Support (PASS) and held in a separate account.

SUBPART C: FINANCIAL FACTORS OF ELIGIBILITY

Section 121.31 Exempt Unearned Income

The following unearned income is exempt:

- a) Vendor payments when these are made in behalf of a household by a nonhousehold member with nonhousehold funds, and paid directly to the household's creditors or person or organization providing the service to the household. (Including rent and mortgage payments made to landlords or mortgagees by Housing and Urban Development (HUD).)
- b) Monies that are legally obligated and otherwise payable to the household such as, but not limited to, garnisheed wages, public assistance grants directed to a protective payee, GA disbursing orders and payments directed to a vendor, and support or alimony payments legally obligated to a household member, but which are diverted by the provider of the payment to a third party for a household expense, are counted as income and not excluded as a vendor payment. The following are considered vendor payments not diverted income:

 - 3) Child support or alimony payments specified by a court order or other legally binding agreement to go directly to a third party rather than to a household, and
 - 4) Support payments not required by a court order or other legally binding agreement (payments in excess of an amount specified in a court order or written agreement) which are paid to a third party rather than the household.

148.310	Amendment	July 2, 1993 (17 Ill. Reg. 9840)

- 15) Summary and Purpose of Amendments: The repeal of Section 148.80 is necessary because it has been superseded by a new Section 148.82 which is entitled "Organ Transplant Services." Section 148.82 was proposed to provide an opportunity for public comment on the Department's rules concerning payment for transplant services. The Department initiated the proposal of the new Section because questions had been raised concerning the adequacy of the opportunity for public comment during the adoption of the transplant payment provisions located in Section 148.80.

DEPARTMENT OF PUBLIC AID

NOTICE OF ADOPTED AMENDMENTS

The amendments to Section 148.80 which were questioned were adopted on an emergency basis, effective November 1, 1991, and the notice of emergency amendments was published in the Illinois Register on November 8, 1991, at 15 Ill. Reg. 16166. A notice of proposed amendments was also published on November 8, 1991, at 15 Ill. Reg. 15928; these proposed amendments were effective on March 27, 1992, and were published in the Illinois Register on April 17, 1992, at 16 Ill. Reg. 6255. The Department believes that the adoption of these provisions was proper, but repropoed identical provisions in Section 148.82 to provide another opportunity for public comment and resolve any possible questions about the adoption of these amendments.

A notice of proposed amendments was published regarding Section 148.82 in the Illinois Register on August 21, 1992, at 16 Ill. Reg. 12826. Following public comment and other required rulemaking procedures, the proposed amendments were adopted effective April 21, 1993. The notice of adopted amendments was published in the Illinois Register on April 30, 1993, at 17 Ill. Reg. 6649. Changes were made in the amendments in response to public comment, which remove geographic restrictions concerning transplant centers which are eligible for certification and reimbursement under the Department's transplant program.

The repeal of Section 148.80 will not result in any budgetary changes since the provisions for transplant services remain in effect with the adoption of Section 148.82.

Section 310.450 Procedures for Determining Annual Merit Increases

- An annual merit increase is an in-range salary adjustment for demonstrated performance.
- Eligibility for an annual merit increase shall be determined by the following conditions:
 - Each employee will be eligible for a merit review after attaining 12 months creditable service. The employee's immediate supervisor shall prepare an Individual Development and Performance Evaluation form prior to the Performance Review Date, and discuss the results with the employee.
 - Should the Individual Development and Performance review result in the employee not being eligible for an annual merit increase due to provisions of Section 310.450(d), or should the employee's base rate be at the maximum rate of pay of the salary range assigned to the employee's position, the employee will not be eligible for an annual merit increase until 12 months of additional creditable service has been accrued.
- Based upon the results of the Individual Development and Performance Evaluation, the employees' immediate supervisor shall determine whether the employee's performance warrants or does not warrant an annual merit increase.
- The amount of an annual merit increase recommendation shall be determined by use of the Merit Increase Guidechart of Section 310.540 if the employee's Individual Development and Performance Evaluation has on the Performance Review Date been evaluated at a Category 3 or higher level. An employee whose Individual Development and Performance Evaluation has, on the Performance Review Date been evaluated at Category 4-of 5 shall not receive an increase in the present base salary. However, in no event is the resulting salary to be lower than the minimum or higher than the maximum rate of pay of the respective salary range assigned to the employee's position.

PERCENT BODY FAT

For those individuals not meeting the threshold weight a body fat test will be administered. This is the percentage of body fat that has been determined as the level of overfatness that poses a health risk. The score is in a fat percentage.

2. SIT AND REACH TEST

SPECIAL SESSION - CHICAGO PUBLIC SCHOOLS

Whereas, children in the Chicago Public School system are scheduled to return to the classroom on September 8, 1993; and

Whereas, Illinois law requires the Chicago Board of Education to have a balanced budget for the coming year before the schools can officially open, the only school district in the state so required; and

Whereas, the Chicago Board of Education still faces a shortfall of approximately \$325 million in its proposed budget for the 1993-94 fiscal year; and

Whereas, action by the General Assembly is needed to give the Chicago Board of Education the flexibility it needs to close its budget gap without additional state resources;

Therefore, pursuant to Article IV, Section 5(b) of the Illinois Constitution of 1970, I, Jim Edgar, Governor of the State of Illinois, hereby call and convene the 88th General Assembly in special session to commence at noon on September 2, 1993, to consider the following bills: House Bill 242, House Bill 1507, or any other legislation (new bill or pending), which will address the ability of the Chicago public schools to open promptly.

Issued by the Governor August 27, 1993.

Filed with the Secretary of State August 27, 1993.

Whereas, the goal of community education is to promote citizen involvement, lifelong learning, educational partnerships, and an improved quality of life; and

Whereas, during the week of October 10-16, the Illinois Association for Family and Community Education will promote its educational programs such as Children's Issues, Children and Television, Environment, and Literacy, which are available to

communities throughout the state; Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim October 10-16, 1993, as COMMUNITY EDUCATION WEEK in Illinois.

Whereas, a 1990 study indicated that the presence of the STU School of Medicine, under Dean Moy's leadership, accounted for \$327 million in economic impact, with \$166 million of that in Sangamon County, creating more than 3,000 jobs locally;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim September 30, 1993, as RICHARD H. MOY DAY in Illinois.
